EXPERIENCE

Medical Innovators Company

Software Developer

September 2022 - Present

Houston, TX

- Collaborated on a 4-person team to create a functional website that uses Docassemble as the front end and MongoDB on the backend.
- Documented the code that we wrote to help future workers .
- Created the Database System using MongoDB that stores customer data.
- Implemented Prefect to automate the dataflow.
- Partnered with a supervisor to carefully revise the webpages in accordance with what the customer wants..
- Observed agile software methodologies.

PERSONAL PROJECTS

HCSS Dashboard

June 2021

- A user-friendly dashboard that gives the users the flexibility to easily search across information for resources
- Awarded first place by the CodeRed Hackathon organized by CougarCS
- Collaborated with a team that have different skillsets on both front-end and back-end.
- Implemented real-time data connected to the database.
- Helped in Front-end with html5, css3, javascript(with bootstrap).
- Developed Back-end with MongoDB, JSON, Python Flask.
